

# Saleh Shamloo Ahmadi

(+98)9120153915 | [slhshamloo@gmail.com](mailto:slhshamloo@gmail.com) | [github.com/slhshamloo](https://github.com/slhshamloo) | [slhshamloo.github.io](https://slhshamloo.github.io)

## EDUCATION

**Sharif University of Technology, Tehran, Iran**

*Bachelor of Physics*

Fall 2019 – Present (Expected February 2024)

*GPA: 18.75/20.00 (Ranked 5th out of 55 in class)*

*GRE Subject Physics: 980/990 (96th Percentile)*

## RESEARCH INTERESTS

**Simulation of Materials, Computational Soft Matter Physics, Collective Behavior, Condensed Matter Physics, Biophysics, Computational Physics.**

## RESEARCH EXPERIENCE

**Monte Carlo Simulation of Polygonal Colloids in Various Geometries**

Summer 2022 – Present

*Supervisor: Prof. Mohammad Reza Ejtehad*

*Sharif University of Technology*

- Developed a new Julia package to allow for arbitrary geometries (HOOMD-blue, which is the package used for this kind of simulation, has limited ability for adding constraints).
- Introduced novel optimizations, including a new overlap detection method and parallelization of constraint enforcement.
- Utilizing CUDA GPU acceleration in a Monte Carlo parallelization scheme.

**Exfoliation of Layered Materials into Nanosheets**

Summer 2022 – Fall 2022

*Supervisor: Dr. Naimeh Naseri*

*Sharif University of Technology*

- Gathered testing data on the yield of Molybdenum disulfide nanosheets after sonication in several solvents (e.g. NMP) for the evaluation of a machine learning model.
- Created the samples using bath sonication with various parameters (power and time), then collected the solution after centrifugation at different speeds.
- Analyzed samples with UV-Vis tests.

**Lab Assistant in the Health and Energy Lab**

Winter 2022 – Fall 2022

*Supervisors: Dr. Naimeh Naseri, Mr. Nikan Afsahi*

*Sharif University of Technology*

- Helped with micro-supercapacitor projects.

## ACHIEVEMENTS

Ranked **8th** in the Iranian Universities Physics Olympiad

Summer 2022

Ranked in the **top 0.2% (284th out of 150666)** in the national university entrance exam for physics and mathematics and **1st (out of 139131)** for foreign languages.

Summer 2019

Awarded the **bronze medal** in the Iranian Physics Olympiad

Summer 2018

## PROJECTS

**Ising Model, Argon MD, Percolation** | [GitHub repository](#)

Fall 2021

- Supervisor: Prof. Mohammad Reza Ejtehad. Computer Simulations in Physics course assignment projects (with 20.0/20.0 final grade).
- Other notable simulation include various deposition models, diffusion-limited aggregation and different random walks.

**Simulating Electrodynamical Systems using the FDTD Method** | [GitHub repository](#)

Spring 2021

- Supervisor: Prof. Mahmud Bahmanabadi. Electromagnetism II course project
- Implemented a numerical solver for the Maxwell equations using the FDTD method and simulated a few simple systems, like a parabolic mirror reflecting waves from a material with a different index of refraction.

**Nonlinear Market Model Study Reproduction** [GitHub Repository](#)

Spring 2023

- Supervisor: Dr. Saman Moghimi Araghi. Nonlinear Dynamics and Chaos course project. Joint work with Erfan Rahbari.
- Reproduced the result of [this paper](#) which discusses nonlinear asset-price dynamics and stabilization policies.

<b>Astronomical Image Processing</b>   <a href="#">GitHub repository</a>	Summer 2023
<ul style="list-style-type: none"> <li>Supervisor: Dr. Reza Rezaei. Astronomy Lab course assignment projects.</li> <li>Performed 9 amateur astronomy experiments in teams of 3, involving observations and intensive image processing.</li> </ul>	
<b>Measurement of Short Particle Lifetimes</b>   <a href="#">Documents</a>	Spring 2022
<ul style="list-style-type: none"> <li>Supervisor: Dr. Amin Faraji Astaneh. Particle Physics course project. Joint work with Hossein Hatamnia.</li> <li>Used CERN tutorial data to demonstrate one of the methods (standard deviation in the uncertainty principal).</li> </ul>	
<b>Sound Amplifier Circuit Design</b>   <a href="#">Documents</a>	Fall 2020
<ul style="list-style-type: none"> <li>Supervisor: Dr. Seyed-Nader Seyed-Reihani. Electronics I course project</li> <li>Built a simple sound amplifier circuit, including controls for gain, volume, and bass.</li> </ul>	
<b>Trajectory of Supersonic Projectile with Variable Air Resistance</b>   <a href="#">GitHub repository</a>	Fall 2020
<ul style="list-style-type: none"> <li>Supervisor: Prof. Sohrab Rahvar. Analytical Mechanics I course project.</li> <li>Extracted the variable air resistance coefficient from a figure in the reference textbook (Marion) and used RK4 integration to solve equations numerically.</li> </ul>	
<b>Simulating Wheel-Pendulum System with Lagrangian Mechanics</b>   <a href="#">GitHub repository</a>	Winter 2021
<ul style="list-style-type: none"> <li>Supervisor: Prof. Sohrab Rahvar. Analytical Mechanics II course project.</li> <li>Derived the set of nonlinear differential equations describing the motion of the system, which exhibited chaotic behavior, and solved them using stiff numerical methods to minimize numerical stability.</li> </ul>	

## NOTABLE COURSES

<b>Advanced Programming</b>   <a href="#">Course project GitHub</a>   <a href="#">Assignments GitHub</a>	Spring 2021
<i>Dr. Mohammad Amin Fazli</i>	<i>Grade: 20.0/20.0</i>
<b>Data Science and HPC</b>   <a href="#">Webpage</a>   <a href="#">Assignments GitHub repository</a>	Spring 2022
<i>Dr. Hamidreza Arian</i>	<i>Grade: 20.0/20.0</i>
<b>Quantum Computation and Information I (Graduate)</b>   <a href="#">Webpage</a>	Spring 2023
<i>Prof. Vahid Karimipour</i>	<i>Grade: 17.6/20.0</i>

## TEACHING EXPERIENCE

<b>Teaching Assistant, Computer Simulations in Physics</b>	Spring 2023
<i>Prof. Mohammad Reza Ejtehad</i>	<i>Sharif University of Technology</i>
<b>Teaching Assistant, Introductory Programming (in C)</b>	Spring 2021
<i>Dr. Reza Fakouri</i>	<i>Sharif University of Technology</i>

## TECHNICAL SKILLS

<b>Programming Languages</b>	Julia, Python, C/C++, Java, Octave/MATLAB, Mathematica
<b>Tools &amp; Frameworks</b>	CUDA, Machine Learning, L <sup>A</sup> T <sub>E</sub> X, git, Parallel Computation, Blender, Inkscape, Microsoft/Libre Office
<b>Machine Learning</b>	scikit-learn, TensorFlow, Flux.jl, Keras

## LANGUAGE

<b>English</b>	Fluent (C1~C2 CEFR Level) TOEFL Score: 111/120 (Reading: 30/30, Listening: 29/30, Speaking: 22/30, Writing: 30/30)
<b>Persian</b>	Native

## COMMUNITY & LEADERSHIP

<b>Head of Translation</b>   <a href="#">Webpage</a>	August 2021 – September 2022
<i>Zharfa Scientific Community</i>	<i>Sharif University of Technology</i>
<ul style="list-style-type: none"> <li>Translated parts of The Feynman Lectures on Physics (license for free electronic publication secured from The eFLP Group)</li> </ul>	
<b>Member of the Lambda Study Circle</b>   <a href="#">Webpage</a>	February 2020 – Present
<i>Quanta Study Circles</i>	<i>Sharif University of Technology</i>
